

The polymeric digital printing film with strong adhesive for difficult surfaces

ASLAN DFP 07

A very strong adhesive makes this polymeric digital printing film the solution for long term applications on rough and structured surfaces and on difficult synthetic materials. It provides a high adhesion safety and is thus perfect for permanent applications. The strong adhesive makes this film ideally suitable for 3D doming stickers.

Application	<ul style="list-style-type: none"> • Application on rough and structured surfaces • Application on refattened surfaces • Apolare surfaces such as waste bins • Digital prints with very long durability • Doming-applications 		
Product advantages	<ul style="list-style-type: none"> • Special adhesive with very high adhesive strength • Specially suitable for difficult, uneven or apolare surfaces • Double-sided PE-coated release liner offers an excellent flatness, moist stability and ensures an consistent feeding of printers • Ideally printable with solvent-, eco-solvent-, latex- and UV-curable inks 		
Face film	PVC film, polymeric, white glossy	Thickness	75 µm
Adhesive	Acrylic pressure adhesive	Adhesive characteristics	Permanent, High Tack
Release liner	Silicon cardboard, PE-coated on both sides, 144 g / sqm	Printability	Solvent, eco solvent, latex, UV-curable inks and screen printing
Surface	Smooth and curved surfaces	Minimum outdoor durability	7 years
Dimensions	50 m x 1,37 m		
Recommended Tools			
Tapes	ASLAN TMO, ASLAN TP 122		
Recommended Laminating films	ASLAN SL 17, ASLAN SL 18
